Pravda blames crisis on CIA

Moscow (Reuter)—Pravda, the Communist Party newspaper, yesterday blamed the Polish crisis on the United States, the CIA and the West, charging that they had been engaged on a long-term plan to wrench Poland out of the Soviet bloc.

Moscow's view came in a 3,600-word article in the Soviet party daily that said Poland had been "target number one" for years by Western intelligence agencies aiming to split the Communist bloc's unity.

The plan, Pravda said, was to restore capitalism in Poland and tear Poland from the Socialist community, including the Warsaw Pact.
